PROJECTS

Weather Indicating Application	March 2023
<i>Mini Project</i>	
· The Weather Indicating Application is a dynamic and user-friendly web app designed to provide real-time weather updates for any location. Built with HTML, CSS, and JavaScript, this application fetches weather data from a reliable API and displays it in an intuitive interface.	
KFC clone website	August 2024
· The clone website efficiently guides users through various locations, providing a basic but functional navigation system. With a minimalist design, it ensures fast loading times and ease of use. The use of HTML and CSS delivers a clean layout, while JavaScript enables interactive navigation features.
